## Biblical Encouragement for Moms

September 9, 2012

Topic two: She teaches her children to appreciate the benefits of serving (working hard) at home.

**What are some practical ways to motivate our children to work?  
(Listen for ideas in class.)**

Most of all, we must be women of prayer, and a godly example of working cheerfully for our families.

1. Set a timer for 10 minutes. See how much they can get done!
2. Compliment a job well done. Show others what they did well.
3. Use punch cards for keeping their bedroom clean. Punch every Saturday if the room passes inspection. Prepare a reward when the card is full.
4. Give them a power snack just before cleaning!
5. Pray for your children's attitudes & character.
6. Use a chart to encourage them to succeed. ( Stickers in large quantity at Learning Center or Michaels.)

Be patient. Work alongside your children until you are sure they understand what is required.
